

SWEEP-N-FILL III

The Ultimate Top Dressing and Grooming Brush

FEATURES

- Electric actuator to lift and lower the transport wheels
- Adjustable tow hitch to match tow vehicle
- Infinite brush height adjustment
- Upright storage capability
- Unique 15" soft bristle brushes that allow for excellent contouring of the turf surface
- High ground clearance
- Fully enclosed ground drive mechanism
- Ability to adjust the ground drive chain tension without removing the guards

KEY BENEFITS

- Fills aerated holes in 2-3 passes while using up to 20% less sand than traditional practices
- Moves topdressing into the turf canopy optimizing the use of sand and reducing damage to mower reels
- Low maintenance due to sealed bearings, heavy duty actuator, and ground driven chain drive mechanism
- Can be operated by any small utility vehicle or golf cart to optimize ease of use for the operator
- Lifts lateral shoots and promotes healthier turf
- Removes grain and increases green speed

SPECIFICATIONS

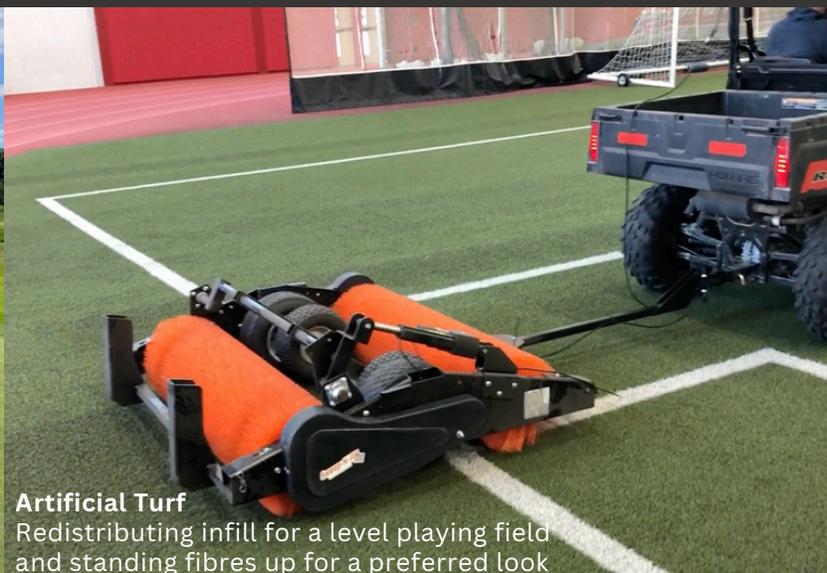

Working Width	54" (1.38 m)
Overall Width	65" (1.65m)
Ideal Working Speed	3 mph (5 km/h)
Weight	388 lbs (176 kg)
Vehicle Requirements	12 V Battery

OTHER APPLICATIONS

Turf Grooming

Raising turf into a vertical position prior to cut and providing a perfectly groomed appearance
