## *Why TarpDevil?*

Because if you are a cover user, you know they are a necessary evil but that there has to be a better way to handle them!

TarpDevil is a brand new cover management system that has been custom-engineered specifically for those of you who use covers for managing elements of your business. Golf courses, sports complexes, equestrian centers and farms can all benefit from the efficiencies that come with using this hot new tool.

- ❖ Save precious labour resources
- ❖ Extend the lifespan of your covers
- ❖ Increase the capacity of your current cover storage facilities

## *What Are People Saying About TarpDevil?*

"TarpDevil performed exactly how we hoped it would and increased the productivity of our crew instantly. Instead of everyone pitching in to roll up the cover and bag it, half (yes half) of the crew now stays at the green and rolls up our insulation layer. In addition, a big bonus to using the Tarp Devil is that our covers roll up factory tight and as a result, we have reduced the storage area by about a third making room for other assets. Without question, TarpDevil has been a valuable addition to the golf course, fleet and crew at Ekwanok."

***Alden Maddocks, Superintendent of Grounds, Ekwanok Country Club  
Manchester, Vermont, USA***

"There is nothing exciting about removing covers. I heard about TarpDevil and immediately imagined it fitting into our operation at Muskoka Lakes. This spring we definitely saw the benefits of TarpDevil coming shining through during our removal process. It was done in less time, with less labour which allowed us to get to other important spring tasks more quickly benefitting our membership. Based on our experience, we couldn't be more pleased with our TarpDevil purchase and would recommend it to anyone managing covers on a golf course."

***Jim Flett, Golf Superintendent, Muskoka Lakes Golf and Country Club  
Port Carling, Ontario, CANADA***
